

# Different Approaches for New and Existing Permittees

## GCSA Employee Training

Tulsa Mohawk Education Auditorium

November 17, 2015

Richard Smith, INCOG Contractor

# Application Deadlines and SWMP

- **January 30, 2016** for existing permittees.
- **April 29, 2016** for new permittees.
- Stormwater Management Program (SWMP) document must be completed **at time of filing NOI**. Don't submit.
- It is assumed that “renewal” (existing) permittees have a fully-implemented SWMP at time of re-application.
- New Permittees must have a SWMP document at time of application; implementation will follow.

# SWMP BMPs

- Existing Permittees:

- All BMPs should be fully implemented.
- Application is time to make changes to BMPs.

- New Permittees:

- Application is time to select BMPs.
- None have to be implemented at time of application.
- Consider level of complexity; give difficult BMPs a few years to implement.
- Start with easiest in the first year (e.g., Public Education BMPs).

# SWMP Measurable Goals & Schedules

- Existing Permittees:

- MGs for each BMP should be reassessed at application time.
- BMP implementation schedules should also be adjusted.
- BMP adjustments are to strengthen program.

- New Permittees:

- Set MGs and schedules for each BMP in the new SWMP.
- Be practical, consider staff time, local resources, outside assistance, etc.
- E.g., don't say you will distribute 900 Pet Waste brochures.
- Only do BMPs that you can do; you can only replace, not drop.

# Measurable Goal Schedules

- Existing Permittees:

- Reassess each BMP's schedule at application time.
- Consider past successes and failures, future resources, etc.

- New Permittees:

- Consider staff time, local resources, outside assistance, etc.
- Be careful not to overlap schedules – e.g., don't say that you will do 80% of your SWMP activities in the spring of every year.

Both existing and new permittees must have an updated SWMP at time of application with all BMPs, MGs and schedules for the coming 5 year permit cycle.

# Permit Fees for All Permittees

- Application fee = \$100.
- Annual permit fee = \$748.11.
- Fees will coincide with the state fiscal year.
- New MS4s - first year's permit fee will be prorated.
- Fee schedule can be found in Section 252:606-3-4(D)(1):  
<http://www.deq.state.ok.us/rules/606.pdf>
- Invoice will be sent after NOI is received by ODEQ.

# Thank you.

## Any Questions ?
